

AMENDMENT

U.S. Appln. No. 09/151,300

2. (Amended) A plurality of medical devices combined in a portable, hand-held unitary housing, comprising:
an outer casing having a carrying handle and a first and a second opening for accessing a first and a second compartment within the housing;
a first cover for covering said first opening and a second cover for covering said second opening,

wherein said first compartment holds a [gas dispensing device] breathable oxygen delivery system and said second compartment [holds] holds additional medical equipment.

3. (Twice Amended) A plurality of medical devices combined in a portable, hand-held unitary housing, comprising:

an outer casing having a carrying handle and a first and a second opening for accessing a first and a second compartment within the housing;

a cover for covering one side of said outer casing, including said first and second opening,

wherein said first compartment holds a [gas dispensing device] breathable oxygen delivery system and said second compartment holds additional medical equipment.

17. (Amended) A hand-held multi-component emergency medical system, comprising;
[an] a breathable oxygen delivery system;
a defibrillation system; and
a unitary casing for housing said oxygen delivery system and said defibrillation system.

18. (Amended) A hand-held multi-component emergency medical system, comprising;
[an] a breathable oxygen delivery system;
a oximetry system;
a defibrillation system; and
a unitary casing for housing said oxygen delivery system, said oximetry system and said defibrillation system.
